

## **USCIB at UN General Assembly Week, September 18-22 in New York**

### USCIB-Organized Events:

#### **Monday, September 18: Business Fights Poverty Conference, "Rethinking Collaboration for the SDGs,"**

**8:30AM-2:30PM, hosted by Barclays offices at 745 7th Avenue, New York, NY 10019**

USCIB will join forces with Business Fights Poverty to co-host this action-focused half-day event on how business, government and civil society are collaborating to deliver the Sustainable Development Goals. USCIB's President and CEO, Peter Robinson, and USCIB members will be on hand as panelists.

*USCIB members are encouraged to RSVP directly [here](#).*

#### **Tuesday, September 19: "Data Analytics for SDGs and National Reports," a USCIB UNGA72 Breakfast Roundtable**

**8:00AM-10:00AM, hosted by KPMG at 345 Park Avenue (51st between Park and Lex), New York, NY 10154, 37th Floor**

Measuring progress and tracking private sector development impact is crucial to prioritize deployment of investment and other business resources, and to inform SDG relevant policy and implementation. Big data is not enough by itself and governments and business alike are facing the challenge of "too much information." A framework for understanding and prioritizing sustainability actions depends on the right analysis of that information.

Experts from USCIB member companies will present and discuss private sector frameworks for data analytics on SDG implementation, and consider opportunities for synergy with national reports for more targeted and comprehensive UN discussion and action.

*As space is limited, please register [here](#).*

#### **Thursday, September 21: "Going Further Together for Shared Impact: U.S. Public-Private Partnerships for Sustainable Development" a USCIB UNGA72 Breakfast Roundtable**

**8:00AM-10:00AM, hosted by Deloitte at 30 Rockefeller Plaza, New York, NY 10112**

Public-private cooperation is needed to break down silos, catalyze resources and join forces to address SDG challenges. Such partnerships are also identifying new business opportunities and innovative solutions. USCIB member companies and government partners will present and discuss examples of public-private sector partnership to advance the SDGs, with a view to expanding those working relationships and improving and scaling up efforts for shared impact and benefit.

*As space is limited, please register [here](#).*

**Friday, September 22: USCIB Side Event, Business Makes It Happen**  
**3:00PM-5:00 PM, hosted by Pfizer at 235 E 42nd St, New York, NY 10017**

This wrap-up event will present the main recommendations and initiatives identified during USCIB UNGA week events, and discuss next steps on key questions:

- Where does UN reform create new opportunities to mobilize business action on SDGs?
- How can business metrics and analytics optimize and scale up investment in needed infrastructure and implementation of SDGs?
- What are the essential ingredients for impact in public private partnerships advancing the SDGs?
- What is the institutional evolution needed to catalyze business innovation and involvement to advance SDGs in multilateral institutions?

*As space is limited, please register [here](#).*

### ICC Events

**Monday, September 18: UN Global Compact Private Sector Forum, co-organized with ICC**  
**From 12:30PM at UN Headquarters**

Hosted annually by the UN Secretary General, the Forum invites leading CEOs and investors, Heads of State and Government, senior UN leadership and select civil society representatives to take part in an interactive discussion and high-level networking opportunity on the SDGs. This year, with the theme of Unlocking Prosperity: Financing the 2030 Agenda, the Forum will focus on ways stakeholders can work together to catalyze responsible business growth and unlock innovative forms of financing at an unprecedented scale.

**Monday, September 18: Business for the SDGs: Innovation, Technology and Connectivity for a better future for all**

**5:00PM – 8:00PM at ECOSOC Chamber, UN Headquarters**

The International Chamber of Commerce (ICC), GSMA, UN DESA, and the Governments of Indonesia and Colombia are delighted to invite you to this high-level event.

Only two years after the adoption of the 2030 Agenda, businesses, governments and civil society are deploying technology solutions to address key areas articulated by the UN Sustainable Development Goals (SDGs). Many of these initiatives highlight how business can drive mobile technology, digital tools and connectivity to effectively support people, planet, prosperity and peace. Collaboration within and across industries, and with governments, will ensure an enabling environment for business to continue to accelerate its contribution to a better future for all.

During this invitation-only event, prominent speakers including Heads of State, UN officials and private sector leaders will share best practices on business action to advance the SDGs, the impact of industry-wide efforts, and how we can augment collaboration between governments and industries to accelerate the delivery of the SDGs.

Due to the need for security approved passes, and strict capacity limitations, *please [register here](#) before Tuesday September 12*. Should ICC receive your registration after this date, they will be unable to guarantee access to the venue. A confirmation email and further logistical details will follow after registration.
