U.S. INDC

U.S. Net GHG Emissions Under Obama Administration's 2020 and 2025 Targets

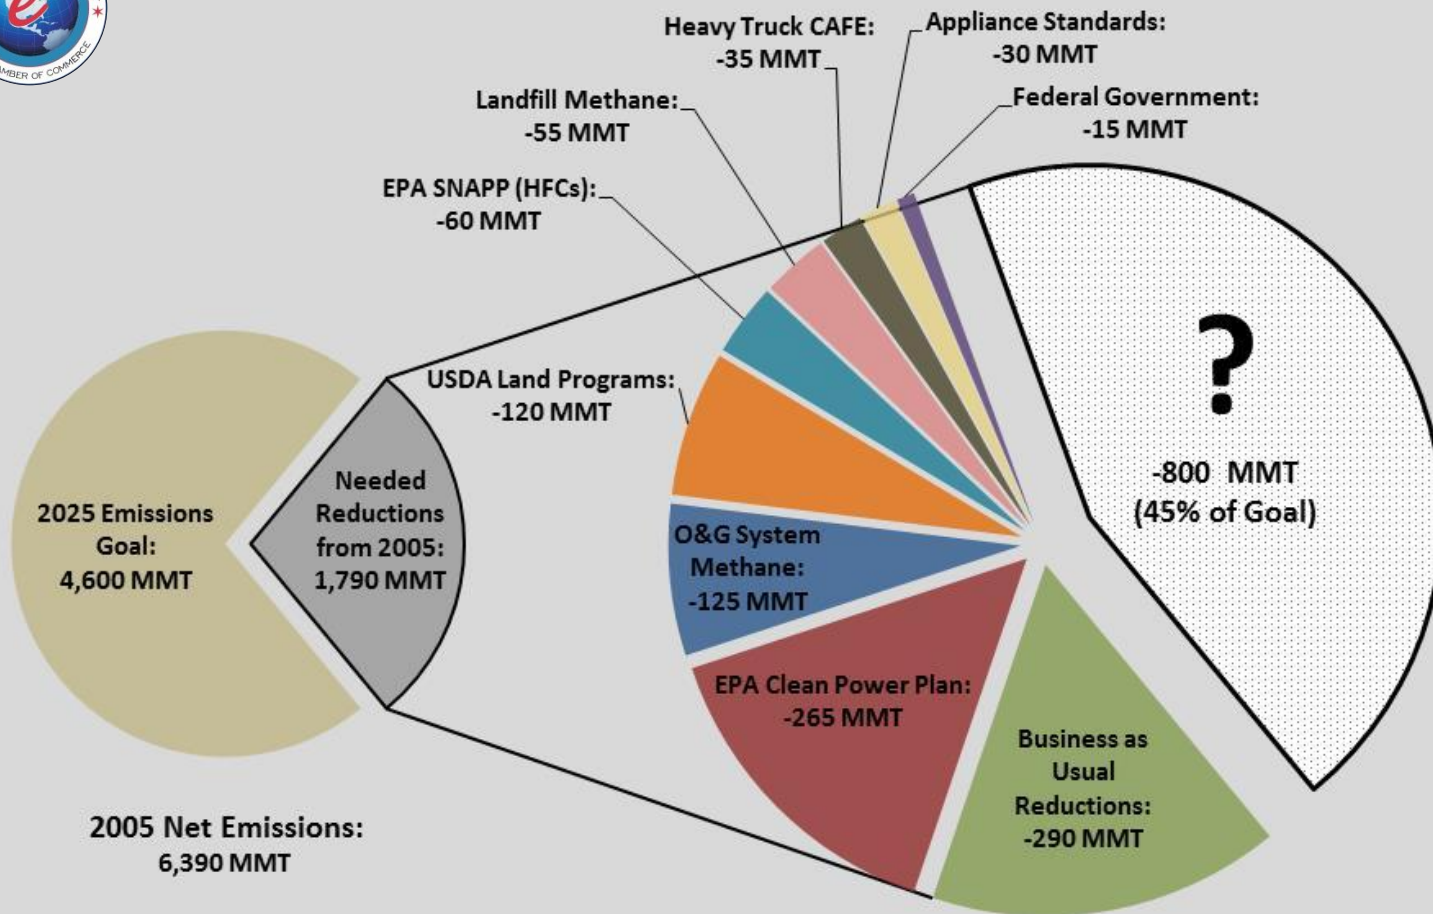

U.S. INDC GAP

Obama Administration's 2025 28% GHG Emissions Goal: Mind the Gap

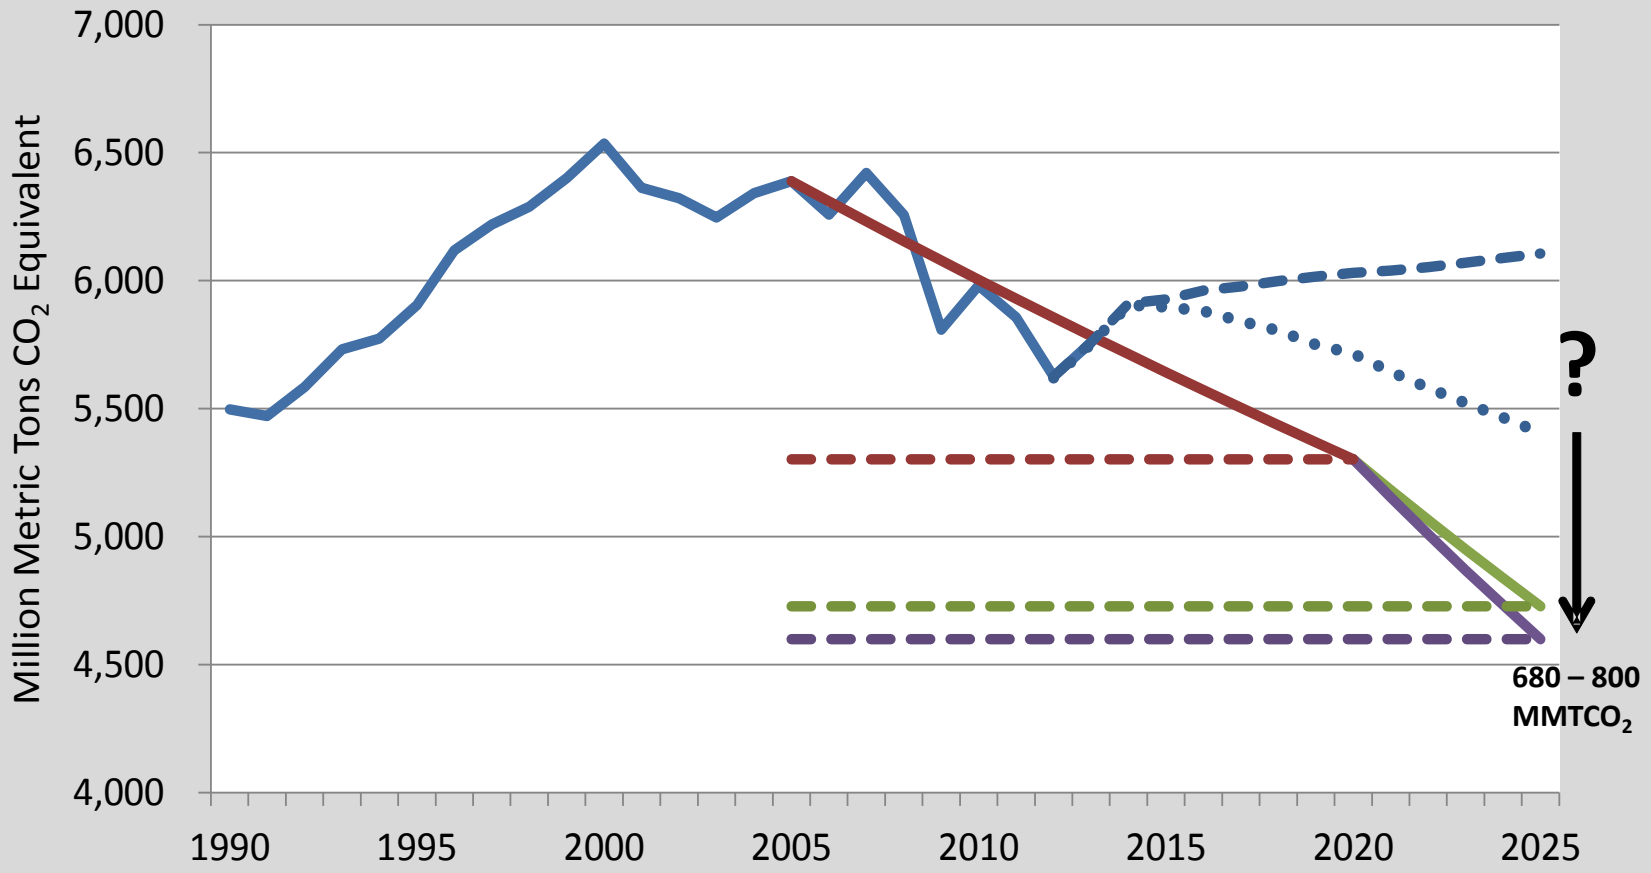

Sources: Greenhouse gas emissions measured in million metric tons (MMT) of carbon dioxide equivalents. Excludes U.S. Territories. Estimates derived using EPA's *U.S. Greenhouse Gas Inventory Report: 1990-2013*, EIA's *Annual Energy Outlook (2015 and earlier)*, EPA's *Regulatory Impact Analysis for the Clean Power Plan Final Rule*, the *U.S. Climate Action Report 2014*, and programs announced or planned by the Obama Administration.

U.S. INDC GAP

U.S. Net GHG Emissions Under Obama Administration's 2020 and 2025 Targets

- Historic Net GHG
- Projected Emissions: 2020 Target
- Projected Emissions: 2025 26% Target
- Projected Emissions: 2025 28% Target
- 17% Target Level
- 26% Target Level
- 28% Target Level
- Energy Institute Estimate: Business as Usual
- Energy Institute Estimate: Announced Policies
