

Driving an Agenda for American Success in the Global Economy

Spur Growth Through Expanded Trade

- Support ratification and implementation of the U.S.-Mexico-Canada Agreement
- Press for new market-opening agreements with Japan, the EU and the UK
- Push for effective enforcement of trade rules while eliminating recent trade restrictions
- Facilitate trade by reducing red tape at the border and other customs reforms
- Advocate for effective and timely WTO reform and U.S. leadership in WTO

Promote and Protect Investment in the United States and Abroad

- Eliminate policies requiring forced localization and restricting cross-border data flows
- Promote pro-investment policies and investor protections in the US and internationally
- Work to revive the U.S. bilateral investment treaty program with appropriate partners
- Support CFIUS reform to protect national security and maintain openness

Prepare the Workforce for the Jobs of the Future

- Champion global policies to build competitive workforces for the 21st-century economy
- Press for flexible labor markets, women's empowerment and youth employment worldwide
- Support the development of technologies to grow digital skills and speed worker retraining
- Promote the ILO's work to improve national implementation and enforcement of labor laws

Advance American Competitiveness and Innovation

- Argue for sensible taxation policies to promote cross-border trade and investment
- Reduce double taxation and tax disputes via principles-based rules that encourage growth
- Promote strong global rules that protect U.S. intellectual property and spur innovation
- Maintain the internet's openness and stability through engagement with ICANN
- Promote interoperable approaches to cybersecurity and privacy policies

Highlight the Essential Private-Sector Role in Sustainable Development

- Secure support for inclusive policies toward the private sector in major multilateral bodies.
- Spur ongoing business leadership in implementation of the UN 2030 Development Agenda
- Advance global climate action alongside energy security, innovation and climate resilience
- Promote sound, collaborative solutions to cross-border environment and energy challenges

Catalyze Business's Positive Social Impact

- Foster consensus on the distinct roles of states and companies in upholding human rights
- Support voluntary approaches to enhance corporate responsibility reporting and PPPs
- Promote effective regulatory regimes to combat bribery, corruption and human trafficking
- Elevate the fight against illicit trade and illicit markets
- Promote multi-stakeholder initiatives to improve working conditions in global supply chains
